Re: Bill 33 Consultation Documents and Privacy of Student Information

Please advise teachers that the only documents that need to be forwarded to the ADTU for potential Bill 33 grievances is the ADTU/BCTF Consultation Meeting Report Form and, if possible, the Principal's form stating their rationale for class organization.

Teachers should keep copies of class lists and IEP's for their own personal records and should also be cognizant of the School District's protection of privacy requirements regarding personal student information.

Please contact me if you have any questions.
